

## Alberta School Councils' Association Report

---

Shelley Odishaw

ASCA has partnered with the ATA in the [Stand For Education](#) campaign to bring to the forefront funding cuts to programs that mean larger class sizes and teachers struggling to provide support to the students who need it most. Check it out, join us.

The [School Council Engagement Task Force](#) is underway for 21/22. The first set of questions will be closing shortly, second set coming out soon. Check out previous discussions on the [What We Heard](#) page.

ASCA's popular [Meeting Mondays](#) and [Webinar Wednesdays](#) will be starting up again soon. Check the website for dates and topics.

ASCA has updated [workshops](#) available for school councils. Funding from the [Alberta School Council Engagement Grant](#) can be used for ASCA workshops. Speak with your principal about how your school council can access this funding.

ASCA is preparing for AGM 2022 and the [Call for Advocacy Resolutions](#) has been made. If your school council is interested in proposing an advocacy resolution, now is the time to start. Check out the [Advocacy Manual](#) to see existing policies.

If you have questions, comments, concerns about what is going on in Alberta education, or with ASCA, we would like to hear from you. Email me at [shelleyodishaw@gmail.com](mailto:shelleyodishaw@gmail.com) or click on the [Contact Us](#) button on our website - be sure your school council executive information is up to date with ASCA, click to [Update your Information](#).
